

OUR SERVICE DELIVERY APPROACH

As PRAB strives to be a transformative community institution that is a full participant in Central New Jersey, we employ our RADIANT Approach to Service Delivery.

WE ARE...
RADIANT!

RESPONSIVE

We are a bona fide community partner and devoted advocate, speaking on behalf of people whose needs may otherwise go unmet due to social, cultural, linguistic, economic, and other factors.

AGE-APPROPRIATE

We engage and involve people of all age groups in programs and services that take into account their personal developmental levels.

DEVELOPMENTAL

We help individuals and families develop their assets and abilities through participation in program and community efforts.

INNOVATIVE

We create programs and services that effectively meet the current and future needs of the individuals and families in the community.

ACTION-ORIENTED

We empower individuals and families to be involved in community life and to help others in their individual and family growth.

NURTURING

We strive to understand Central New Jersey's diverse cultures, challenges, and collective desire to succeed, and provide our services in a multicultural, bilingual environment.

TRANSFORMATIVE

We produce learning environments and collaborative spaces to ensure continuous and sustainable improvements in the community.
